# Who are we?

**Lifehuni** is a company with more than 20 years of experience in the commercialization of natural products, which are manufactured by laboratories that comply with good manufacturing practices for international markets.

The raw materials of our products are composed of natural extracts, medicinal plants and dehydrated products that are grown and processed in Colombia.

Our business model is defined under principles of ethics, responsibility and trust, always seeking to improve the quality of life of our customers, promoting environmental sustainability, competitiveness and human development in our operations.
